Collectes spéciales (résidus domestiques dangereux) : **4 dates publiées au printemps (www.mrchsl.com)**

The English version of the Recycling Guide (see reverse) is available at: mrchsl.com/en/publications/category/environment-and-rwmp

* Collecte de surplus de carton (à côté du bac à recyclage) : 3 janvier et 4 juillet

* Collection of cardboard bundles (next to the recycling bin): January 3 and July 4

***Sort*: recycle better and protect nature and health!**

IN MY **RECYCLING BIN**, I PUT...

Containers, packages and prints made of paper, cardboard, plastic (except #6 or with no recycling symbol), glass or metal.

For more information **recreer.recyc-quebec.gouv.qc.ca**

Paper and cardboard

- Paper - Newspaper, glossy, uncoated, fine (letters, flyers, sheets)
- Kraft Paper (paper bags, grocery bags)
- Bound documents (books, journals, magazines, catalogs, directories)
- Envelopes (with or without window)
- Corrugated, flat or multilayers cardboard (rolls, clean boxes)
- TetraPak[MD] aseptic containers (Oasis juicebox)
- Pulp board (egg carton)
- Waxed cardboard (milk and other dairy products, juice)

Remove the printed items from your plastic bags!

Plastic

Empty containers or packages (quickly/lightly rinced)

- All items identified with the following symbol: 1 2 3 4 5 7 (PS ~~6~~)
- Strechable films and bags* (wrappers - e.g. toilet paper, grocery bags, shopping bags, food packages - e.g. bread, dry cleaning bags, rinced milk pouches, etc.)
- Containers, caps and lids ((water, drink, food - e.g. large yogourt containers, cleaning, beauty, health)

Metal

Empty containers or packages (quickly/lightly rinced)

- Containers, caps and lids (cans**, tin cans, bottles)
- Plates, tins and papers (aluminum or steel)

Glass

Empty containers (quickly/lightly rinced)

- Containers, jugs and bottles** (all shapes and colours)

****Return your refundable containers to a retailer.**

Download the mobile app that tells you where everything should go!

ÇA VA OU?

***Reuse and recover* to reduce the burial of waste!**

WHAT I PUT **ELSEWHERE**...

in compost

plant material and other compostable/organic materials

Many tools (Starting Guide, Reminders, Choose your bin) are available at: mrchsl.com/en/publications/category/environment-and-rwmp to show how easy it is to compost!

The practice of composting reduces, on average, up to 50% of waste.

Have you considered grass-cycling

at a drop-off depot

- Household Hazardous Waste (HHW), or Electronics or Electric appliances (special collection dates will be published in the spring)
- Batteries, compact fluorescent bulbs and ink cartridges (town hall and special collections)
- Used paint and oil (municipal curbside collection) date to be confirmed
- Worn tires (garage/retailer)
- Construction waste (recovery facilities)

Do not forget thrift shops for fabrics, toys and other items that are still in good condition.

in the garbage bin

(in last resort)

- Plastic with no ♲ or materials with number 6 (PS)
- Broken mirror, ceramics, crockery and glass
- Foil or not-streching packaging (cereal bags, granola bars)
- Packaging/container made of several indissociable materials (padded envelopes, cylindrical containers for nuts/chips, stickers)

Do you have a recycling bin with two compartments?

Drop your recyclables (paper/cardboard, plastic, metal and glass), mixed without distinction, in both compartments of your recycling bin.
By doing so, you will allow materials to fall properly into the bed of the truck.

The curbside collection is pell-mell due to the fact that compacted material (e.g. cardboard) in one compartment can obstruct the emptying of the bin into the truck. The sorting of all collected materials will be done at the recycling facility.
